

FI-Sub12P

12" Passive Sub-woofer w/ 2 x 12" passive Radiators

The Fi-Sub12P is an ultra-compact cubic passive subwoofer dedicated to the installation market.

The front firing 12" woofer is back loaded by two side 12" passive radiators, providing an extreme low frequency extension for it's modest size.

Product Features

- Extreme discreet look
- Light weight
- Extreme low-end extension
- High efficiency, allowing supporting multiple full range installation speakers

Products Applications

- Ideal for larger size cafés, restaurants, lounges, churches
- Ideal for home theatre
