

FA-SUB18X2P

High Performance Double 18 inch Subwoofer

Product Features

- The design features high-temperature resistant pure copper voice coils
- An advanced magnetic circuit, and ultra-long low-frequency amplitude.
- It employs a proprietary oil-based damping adhesive formula.
- The housing is manufactured through precision CNC machining combined with complex slot wedge bonding techniques.

Product Applications

- Large conference hall, multi-function hall
- Theater, auditorium
- Sports venue,
- Club and DISCO
- Performance hall

Product Specification

Acoustic parameters	
Frequency Response	28Hz -200Hz (-10)
Max SPL	140dB
Sensitivity 1W/1mt	106dB
Nominal Impedance (Ω)	4Ω
Rated Power (W)	2000W
Woofer Configuration	2×18" neodymium magnetic woofer unit with 135mm voice coil
Maximum Sound Pressure Level (SPL)	132dB /137dB
Connectors	Professional NL4MP Professional NL4MPx2 Input 1+1-
Dimensions (W×D×H)	1200×850×580 (mm)
Net Weight (kg)	78KG
